WEDNESDAY MORNING.

**OWEN HALTS
LOBBY INQUIRY.**

**Williams Democrat Delays
Cummins Resolution.**

**Senior Gallinger Declares
Wilson's Charge Absurd.**

**Ask President to Name
Alleged Offenders.**

Mr. E. M. STONE WIRE TO THE TIMES:

WASHINGTON, May 27.—President Wilson's charge that an "international lobby" is at work in Washington in behalf of changes in the tariff was brought to formal notice in the Senate today through a resolution by Senator Cummins demanding an immediate investigation by a committee of five senators to determine the identity of the persons who have made and offered to present demands or bring influence to bear in the framing of the tariff law. The resolution was introduced by Senator Cummins.

Dr. Williams' Pink Pills enable the blood to carry to the weakened nerves the nourishment that they need and have proved of the greatest benefit in even severe nervous disorders.

Dr. Williams' Pink Pills are sold by all druggists at 50 cents per box or six boxes for \$2.50 or by the Dr. Williams Medicine Company, Schenectady, N. Y.

When you find that you are getting in the habit of worrying unnecessarily about your work; that the daily grind is wearing out your nerves, it is time to bring yourself to a sudden stop. You are facing a nervous breakdown. Don't pride yourself on the fact that you can work through the night; you can't sleep up through the night alone. No nervousness cannot be willed away. You must get rid of the cause. There is only one thing to do and that is to build up your blood.

Dr. Williams' Pink Pills enable the blood to carry to the weakened nerves the nourishment that they need and have proved of the greatest benefit in even severe nervous disorders.

Dr. Williams' Pink Pills are sold by all druggists at 50 cents per box or six boxes for \$2.50 or by the Dr. Williams Medicine Company, Schenectady, N. Y.

SETS THE PACE.**

**BUILDING TWO OF BIGGEST
WARRIORS IN WORLD.**

Dreadnoughts Under Construction by Bethlehem Steel Company Will Carry Heaviest Batteries on Record—Charles Schwab Sailing for Europe Declares This Will Be Banner Year for Steel Production.

BY FEDERAL (WIRELESS) LINE TO THE TIMES:

NEW YORK BUREAU OF THE TIMES, May 27.—[Special Dispatch.] Charles M. Schwab, president of the Bethlehem Steel Company, was among the passengers leaving today on board the steamship Kaiser Wilhelm II. Schwab said that he would return to New York in about three weeks.

"Mr. Carnegie go to war? I do not know if he would," said Mr. Schwab. "If there was a war I do not think he would go or carry a gun any more than I would."

"Would you go?" Mr. Schwab was asked.

"I would not. Mr. Carnegie and I are getting too old to tote guns when there was a war. I think Mr. Carnegie would do as I would in such circumstances, let other men do the fighting."

Mr. Schwab said he had not taken Mr. Carnegie's statement that he would go to war, if there was one, seriously.

Admiral Bethoure of the Argentine Navy, was in the large throng at the pier. Mr. Schwab shook hands with the admiral and turning to a newspaper man, said: "Do you men realize that the Argentine Republic is a naval power?"

The Argentine Republic, Mr. Schwab said, is now having the Bethlehem Steel Company build two of the biggest battleships in the world, each to be more than 300 feet long. They will each have twelve-inch gun batteries, the heaviest batteries in any warship in the world.

Mr. Schwab said this would be a "banner year" for steel production "despite the so-called Japanese war."

HUNTRACKED BY OWEN.

The fight over the lobby resolution was at the objection of Senator Owen.

It is now known what a lobbyist is.

It is the man who appears to make demands and arguments; I am for him.

REST THREE
AS KIDNAPERS.Francisco Striker Says
He Was Assaulted.Seattle Unionists Under
Oath to Keep Peace.Telegraph Company
Agrees With Employees.A. P. NIGHT WIRE TO THE TIMES:
LAND, May 27.—Three men were arrested today on charges following an attempt to kidnap two others. One of the men, T. A. Cline, a striker for the Pacific Gas and Electric Company, was arrested. The arrest was followed, their release was granted, and the men having obtained their release on bail, a warrant was issued for Cline, charging him with an assault and battery. He is accused of assaulting Cline's companion, a receiver, C. J. Hart, acting Chief of Police, to the orders that the police and lamp-lighters be doubled. The action was taken following a series of assaults on the lines.MEN PLACED UNDER BOND
QUIET, IN MARYVILLE.
A. P. NIGHT WIRE TO THE TIMES:
MARYVILLE, May 27.—The two men of the Pacific Gas and Electric Company this morning agreed to method of dealing with having five of its former and present leaders released on bail. The company, it was agreed, would be responsible for the safety of the men. The company by standing in front of the company's business, calling its names and through telegrams from one of the company's offices, it was agreed, were sworn in. The two men represented by Attorney F. W. Dall, were brought before Justice D. C. Dall, and on the advice of Justice Dall were placed under bond to keep the peace, just before tomorrow afternoon.FAD COMPANY SIGN
TEN YEARS AGREEMENT
NOT WIRE TO THE TIMES:
FRANCISCO, May 27.—It was announced today here that the Telegraph and Cable Company of the Pacific Electric Telephone and Telegraph Company, a small company, \$1 a day, has signed a ten-year lease. The agreement is to continue for a year, the one made with the Pacific and Telegraph Company, and the territory covered by the agreements includes California, Oregon, Nevada andLAWYER KILLS

A. P. NIGHT WIRE TO THE TIMES:
NEW YORK, May 27.—[Special Dispatch.] Resenting increasing trouble with a girl, Ehrmann, president of Manufacturing Company, shot and instantly killed Ehrmann, a teamster for a year. The shooting occurred at 2000 to the overall and only prompt work of the police and an attack on Ehrmann to jail on a charge of the first degree.MODERN DANCES INDICTED.
New York Grand Jury Hands Down
Presentments Against Suggestive
Terpsichorean Art.
(A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, May 27.—The grand jury handed down today a presentment against modern dances.

"Within the last few months the amount of suggestive, sensual dancing in hotels and restaurants when the sale of liquor is allowed in the city of New York," reads the presentment, "and with iniquitous results to the morals of the young."

GRASSHOPPERS LOW-GEARED.
Expert Says New Mexico Pest Is
Different From Speeding Variety of
the Eighties.(A. P. NIGHT WIRE TO THE TIMES):
WASHINGTON, May 27.—The grasshopper invasion of Northeastern New Mexico, a telegraphic report of which reached the Department of Agriculture today from A. G. Hammer, one of its agents, is not causing alarm among officials here.

First, Mr. Webster, in charge of the work of insect investigations, said today the pest was not likely to spread over a large territory as it could be successfully fought because it had not traveled far or done much damage to crops. The report from Mr. Hammer shows that the "difficult grasshopper" not the fast-moving grasshopper which spread over nearly the entire country in the eighties.

MRS. LINCOLN'S LETTERS SOLD.
Bitter Complaints Go for Small
Sum, Mrs. Washington's Kindly
Note Brings Three Hundred Dollars.(A. P. NIGHT WIRE TO THE TIMES):
NEW YORK, May 27.—The "bitter letters" which Mrs. Lincoln, widow of Abraham Lincoln, wrote more than forty years ago, when in despair of getting Congress to pass an appropriation for her assistance, were sold at auction yesterday. Most of the letters, which were to be sold for less than \$100, brought \$50.

The most acrimonious letter of all, one in which Mrs. Lincoln wrote that she was "utterly heartbroken," brought \$50, the best price of the lot.

A letter in which Mrs. Lincoln offered to sell a black lace dress which cost over \$200, brought \$50.

The most acrimonious letter of all, one in which Mrs. Lincoln wrote that she was "utterly heartbroken," brought \$50, the best price of the lot.

A letter of Martha Washington, a simple, kindly letter to an old friend with love, kisses and remembrances, sold for \$50.

principal bondholders and acting in behalf of the North American Company.

The North American Company is understood to hold as collateral on its loan of \$400,000 all the first mortgage bonds on the railroad's Federal land grant of 1,250,000 acres in Arizona and New Mexico, and \$200,000 first mortgage bonds of the New Orleans, Texas and Mexico Railroad Company's subsidiary.

The financial difficulties of the railroad are of long standing and are attributed in part to the southwestern floods of 1911 and 1912, to the increased wages of railway employees and to the high price of money. The ownership of the Chicago and Eastern Illinois, it is stated, also has proved a financial drain on the parent system.

"FRISCO" SYSTEM
A RECEIVERSHIP.St. Louis Court Acts on Its
Failure to Meet Loan.Financial Difficulty Due to
Flood and High Wages.T. H. West and B. L. Win-
chell Are Appointed.

(A. P. NIGHT WIRE TO THE TIMES):

ST. LOUIS, May 27.—Thomas H. West, chairman of the board of directors of the St. Louis Trust Company, and B. L. Winchell, president of the St. Louis and San Francisco Railroad Company, were appointed receivers for the railroad in the Federal District Court here late this afternoon.

The petition for the receivership is based on the inability of the railroad to meet a maturing loan of \$2,350,000 based on short-time 5 per cent notes due June 1.

The appointment of the receivers has taken place about an hour after the appointment of ancillary receivers for the Chicago and Eastern Illinois, a subsidiary of the St. Louis and San Francisco, by the United States District Court in Chicago.

JUDGE SANBORN ACTS.

The application for appointment of receivers for the St. Louis and San Francisco was made to Circuit Judge Walter H. Sanborn. A receivership was urged as the only solution of the financial difficulties of the road by James Campbell of St. Louis, president of the Northern American Company, said to be a creditor of the road, to the extent of \$400,000.

B. F. Youkam, chairman of the railroad board of directors, came to St. Louis last week to consult with local interests as to the best course to pursue. At first it was rumored that some means would be found to tide the railroad company over its pressing necessities, but this hope was dissipated early today when Judge Sanborn and attorneys and directors for the railroad went into secret conference.

At noon today it became known that petitions were being prepared for the appointment of a receiver and rumors started that this proceeding would be as to the feasibility of such action.

FORMAL APPLICATION.

These rumors were verified in part when the formal application was presented to Judge Sanborn late this afternoon. Attorneys Frederick W. Lehman and Charles Nagel, representing certain creditors, said they preferred to have the receiver named who were in no way connected with the railroad, thus opposing the appointment of President Winchell and Mr. West, whose trust company had looked after many of the financial affairs of the road in the past.

The objections of Attorneys Lehman and Nagel did not prevail with the court.

(A. P. NIGHT WIRE TO THE TIMES):

DETROIT (Mich.), May 27.—Among the officers elected by the American Baptist Home Mission Society yesterday were:

D. K. Whitcomb, Los Angeles president; J. Whitcomb Brougher, Los Angeles president of the American Baptist Publication Society.

John Williams of Pittsburgh, president of the Amalgamated Association of Iron, Steel and Tinworkers, dressed the convention on "The Gospel in the Industrial World."

You men who
have been paying
a good custom-
tailor's price
for clotheshave a pretty clear idea of
what good tailoring is.
You're just the man who
will appreciate the quality
in the clothes we make.You'll find our suits at \$25,
and more, very unusual values;
the money-saving may
not appeal to you, but you're
probably too good a business
man to pay \$40 or \$50 for
anything you can buy for
\$25 or \$30.You'll appreciate the
saving of time; you've
learned that time is one of
the elements of success.We make good clothes
to sell at \$18 and \$20;
you'd better look at \$25
suits and upward. Our
mark in a garment is a
small thing to look for,
a big thing to find.Hart Schaffner & Marx

defendant in a suit of a brother and sister for gain of control of the concern, which is a partnership incorporated under the laws of the state, has applied for an injunction against his bodyguard, as the result of two physical encounters with Ernest Cole, his nephew.

Patrolmen have been instructed to act as a bodyguard for him.

The letter to the police declares that Ernest and his two companions, by action and words, threatened to crush out the life, injure or otherwise do great bodily harm to Cole.

It is a rugged, burly fellow, a young man of powerful physique and able to do great bodily harm," while "Cole is a man of 55."

Robert is a son of Mrs. Hallie Cole Hart of Los Angeles, widow of Dr. Cole, and one of the two plaintiffs in the \$1,000,000 suit to break their father's trust agreement and obtain a partition of the estate.

**I CURE
PILES
FISTULA & ALL RECTAL DISEASES
WITHOUT OPERATION
BY MY PAINLESS DISSOLVENT METHOD
I TREAT NO DISEASES EXCEPT THOSE OF THE RECTUM
AND BOWEL.**

For twenty-five years I have been curing diseases of the rectum and lower bowel. During that time my experience as hospital and railroad surgeon, as college lecturer and professor, has enabled me to develop a method that is superior to all others. I cure without surgery and my patients are never confined in bed and never lose a moment's time from their business. My method is not a "home cure" or a "correspondence treatment" but it is an application of skilled treatments administered under the most rigid aseptic conditions in my office.

I solicit old, severe and obstinate cases of fistula, prolapse, fissure and ulceration that have heretofore resisted all treatments employed. If you are a sufferer from rectal trouble I invite you to investigate my method thoroughly by talking or writing to any of my cured patients. If you will call at my office I will be pleased to give you the names and addresses of many well-known Los Angeles people I have cured, whom you may interview in regard to my treatment.

Read what a few well-known Southern California people have to say of my method. Many similar letters are on file in my office.

WELL KNOWN SANTA MONICA MINISTER CURED.

This is to certify that Dr. C. H. White has cured me of a distressing hemorrhoidal affection of 25 years' duration. His method of treatment is effective, but not severe. In the past the appliances, the knowledge and the skill have been lacking in this treatment of rectal diseases. He accomplished all his claims in his advertising and at reasonable expense.

I take pleasure in heartily commending the man and his methods.

WEEKLY. **EDWARD H. BROOK**, Pastor First Methodist Church, Santa Monica, Cal.

March 15, 1912.

REV. EDWARD H. BROOK CURED.

My Dear Dr. White: I wish to express to you again my heartfelt appreciation for what you have done for me. After suffering for years with the worst form of hemorrhoids, YOU HAVE CURED ME COMPLETELY, and during the treatment I did not turn aside from my usual work. I therefore commend you and your method to all who come to you for treatment. Very graciously yours, **DR. R. K. DUNN**, Dentist, Santa Monica, Cal.

SAWTELLE DENTIST CURED.

For twenty years I have been suffering from a trouble which was caused by being almost constantly on my feet. The pain from this affliction has at times incapacitated me from professional duties. Dr. C. H. White, with his dissolvent method, entirely cured me, and I am as well as I ever was in my life. I desire to say to all who are suffering from this trouble that Dr. White is doing grand, good work for humanity in the curing of diseases of the lower bowel.

DR. R. K. DUNN, Dentist, Sawtelle, Cal.

REFERENDUM TO BLUE-SKY LAW.

Annihilation Petitions for Freak Legislation.

Malproposition the Target of Battle Fund.

Furious Protest Is Wired to the Governor.

Vehemently protesting suffocation of the financial life of Southern California by blue sky legislation, 60,000 stockholders of investment corporations, representing more than \$90,000,000, are preparing to file Assembly bill No. 2886, by the referendum and initiative.

Petitions denouncing strangulation of the act will be on the streets here tomorrow and vigorous if courteous denunciation of the proposed law was telephoned the Governor last night, with the prayer that he would not sign the bill.

In less than an hour yesterday petitions raised by the members of the California Association of Investment Corporations, at a luncheon and delegation assemblage at Christopher's, to defray the expenses of the legislative campaign.

Petitions that were drawn up by all superfluous verbiage, every address containing a "punch" that would have made the mallegislators sit up and take notice had they heard them, were shot from the hearts of a dozen spokesmen for the association.

Charles A. Elder, M. C. McKenna, Kirk Kepel, L. R. Garrett, J. T. Hobson and others took the floor and pointed the table for the downfall of the misnamed legislative proposal.

PROTECT THE PUBLIC.

No objection was made to a law that would benefit the stockholders of the various companies and protect the investing public, but objection was made and made forcibly against the act that gives the mallegislators of Southern California the privilege of presenting wildcatting but really striking detriment to the masses.

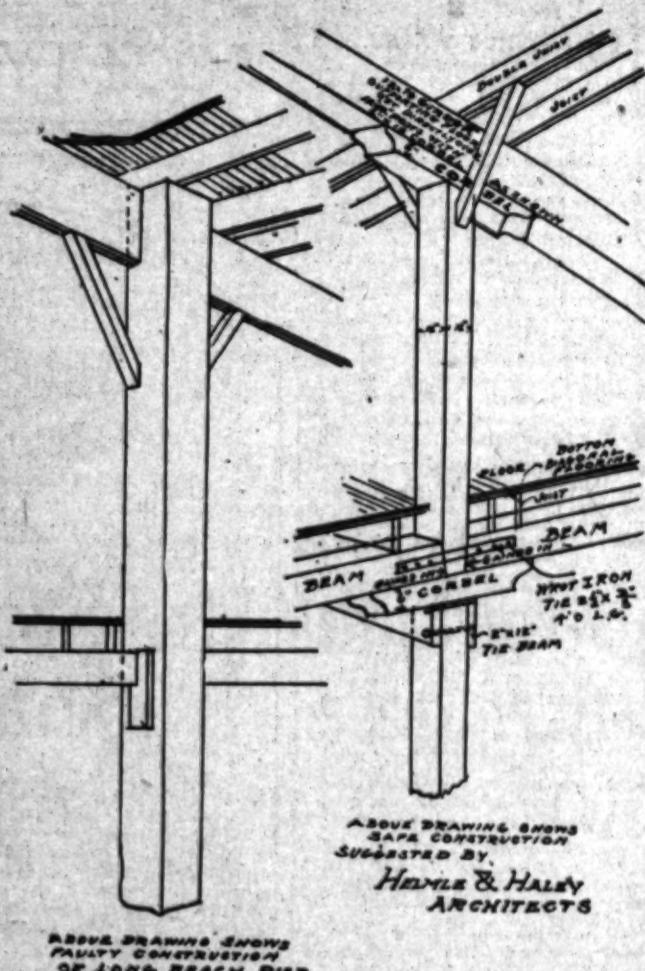

In his straight-from-the-shoulder words, Elder said:

"The California Association of Investment Corporations, which voted with the action taken by the Board of Directors, has passed resolutions to not only referendum No. 2886, but initiate a really progressive bill that will give the mallegislators of Southern California the privilege of presenting the interests of the company or corporation, and their stockholders, who want to do a legitimate business."

THE PROTEST.

The following protest was then signed and wired to the Governor: The California Association of Investment Corporations, representing no investment corporations of Southern California which have more than \$10,000,000, are strongly opposed to the provisions of Assembly bill No. 2886, because this bill puts the hands of one man practically over the very existence of every company that constructs the legal with authority to enforce the law, and arbitrary, and the bill does not protect the interests either of the man or the stockholders who are opposed to what is proposed. We have been given no adequate publicity and investors are opposed to strangulation by the bill.

We pray you not to sign the

How it was; how it should have been.

These drawings, made for The Times by the firm of Helmie & Haley, architects, show the relation of girder, joists and upright in the Long Beach Auditorium (left) and the manner in which a qualified architect would arrange them. Special attention is directed to the corbeis, without which the construction on the right would be as weak as on the left.

Danger.

DEATH LURKING IN WORK OF AMATEUR ARCHITECTS.

BY ARTHUR L. HALEY.

THE DISASTER that has taken place in Long Beach again emphasizes the fact that our buildings, especially those used for public assemblies, should be designed by men who make construction their profession. The chief defect in construction of the pier was the fact that the girders were gained into the supporting posts instead of being continuous over them. The girders over the posts should have been about twice the size in cross section to support the live load as required in the building ordinance of most of the cities. Special attention is directed in the illustrations to the bolsters and the tie beams which transmit the vibration throughout the entire construction. Instead of using one individual support, a word construction it is not proper to run the girders

through the stories but the best practice is to run the girders over the posts with the bolsters as shown. In steel construction the practice is the opposite.

With the use of the bolsters there is no possibility of the failure or splitting of the supporting posts as was the case in point. Whenever a building is supported with wooden posts extending through them, the top of the posts should always rest on top of a bolster or an iron cap plate fitted over the post below and never on a girder. The latter is objectionable as there would always be some settlement due to shrinkage.

In very heavy construction the iron bolster is recommended but for buildings at the beach the wooden bolster is generally to be preferred on account of the action of the sea air upon it.

dience, using vulgar language and leaving the school grounds without permission.

Miss Estes, who is a slight blonde, said: "It was necessary for Mr. Campbell to hold the boy hands while I applied the switches as he had come at me in a threatening manner, with his fists doubled up. I did not strike him more than ten times, over the shoulders, and you see from the weight of the switch that the punishment could not have been severe. During the struggles of the boy to release himself, he fell against a chair and slightly injured his hip, but he was back in his place in school this morning."

The hearing has been set for next Saturday morning.

FAULTY COMPLAINT.

Discrepancies in Draft of Charges Cause Delay in Fresno County Land Hearings.

Faulty drawing of a government complaint against George Schwinn and Martha A. Kearns for the cancellation of a patent to two quarter sections of oil land in Fresno county caused the hearing to be delayed.

The court held that the transfers in the Schwinn case should have been made to the principal defendant, and that in the Kearns case the complaint ought to be amended so the paragraph indicating possible discovery should be eliminated.

The eight purchasers of the portion of the Schwinn land were on hand to testify, but the major went over until this morning for a final order.

The court held that the transfers in the Schwinn case should have been made to the principal defendant, and that in the Kearns case the complaint ought to be amended so the paragraph indicating possible discovery should be eliminated.

The court held that the transfers in the Schwinn case should have been made to the principal defendant, and that in the Kearns case the complaint ought to be amended so the paragraph indicating possible discovery should be eliminated.

Rugs from the Orient

The genuine Oriental rugs—in wonderful old color blendings—

Colorings tropical in their richness—the colorings of an ever-sunny country.

Genuine
Orientals
and Half Price!

Half price for rugs that will become heirlooms

Sherivans, Daghestans, Ghanges—each an oriental blending of wonderful colorings—a symbolism of designing—a story.

A sale of genuine Oriental Rugs—at prices not much more than the same size rug of good domestic make.

Wearable more than a life-time, and each year increasing in value and attractiveness—that's an Oriental Rug.

These Are Half Price!

A reduction of the prices of Embroidered Chiffons!

Dainty, exquisitely embroidered chiffons, by the yard. They are reduced a fourth—and many of them, a half.

Lovely black velvet brocade embroideries on the "tinted" chiffons—and on white.

They are especially adapted to the new draped evening gowns that depend on the richness of their materials and their borderings—rather than on trimming.

They Are Much Reduced!

A sale of embroideries—
Flouncings, Bands, Galoons—

For making up into the lingerie dresses of summer-time, and for dainty under-muslins.

New embroideries, designed in Filet effects, the new Van Dyke points and with the French embroideries.

\$1 and to \$2 the yard—they were priced. But for this sale of embroideries—the prices have been cut to 65 cents the yard.

Gloves for a Dollar—
G and worth much more!

White kid gloves, full pique sewn—and stitched in self-tones and in black.

Fine soft kid has been used in the fashioning of these gloves—you seldom find so good looking and good wearing a glove—reduced to \$1.

Sixteen button, real French Kid gloves—in cream and white—for \$2.75—they were \$5.75.

Creme Poudre Fassen—
To keep the Powder on!

It's an Alexandria preparation—and its purpose—to keep your skin immaculately cool—fresh—without your having to constantly resort to powder puff or chamois.

A little of Creme Poudre Fassen—then dust with Alexandria powder—and you're ready for a day's shopping or a motor trip. The Creme Poudre Fassen will keep your skin as dainty and fresh looking as when the powder was first put on.

WORTHY CANDIDATES FOR THE COUNCIL

Select nine of them in marking your ballot next Tuesday.

J. S. CONWELL.

F. C. LANGDON.

ALEXANDER MACKEIGAN.

H. Z. OSBORNE.

JOHN W. SNOWDEN.

H. P. VOLLMER.

F. J. WHIFFEN.

MARTIN F. BETKOUSKI.

CHARLES MCKENZIE.

W. J. BRYANT.

RALPH CRISWELL.

The Times would pick the first nine.

Municipal Campaign.

(Continued from Second Page.)

They fully understood the matter for the first time, and were for him.

At the residence of Clifford Howard, No. 2845 Harvard boulevard, there was a big turnout and evidence of enthusiasm. The porch and lawn were attractively decorated, and the sledges-hammer blows of the candidates as they declared unequivocally for efficiency, honesty and decency were heard.

"They have raised that old political babbithole of lower taxes," said Shenck, "but the only way to reduce taxes in a city that is growing as fast as Los Angeles is to have one great revenue-producing public utility, an revenue-producing basis at the earliest possible moment. That is what I propose to do when I am your Mayor, and I am going to be your Mayor after the election Monday in July, and don't forget it."

LAWN POLITICS.

Down at Mrs. Jack Thomas's beautiful residence, No. 449 West Adams street, another big crowd awaited. Here lanterns were effectively used in a decorative scheme. The audience was seated on the lawn. Louis W. Myer, pres., said:

"We cannot and must not attempt to reduce expenses by curbing the police or fire department," declared Shenck. "The departments must expand with the growth of the city. We need more policemen and more firemen, but we may reduce our tax burden by developing revenue and place the burden on the consumer, where it belongs."

At Mrs. R. L. Craig's residence, No. 705 Berendo street, the spacious parlors were filled when the Mayoralty party arrived, shortly before 10 o'clock.

"We want no 'Paris of America' here, and I believe that we will tolerate no McCarthy domination. The women will turn the tide for morality and decency. Los Angeles is going forward, not backward, and you can't stop it," was Shenck's point of view.

Stephens, Snowden and MacKeigan spoke briefly at all of the meetings, and Shenck and Stephens concluded the night's work by attending an independent meeting at the home of

You can save nearly the entire expense of your summer gowns, shirtwaists, underwear, etc., and enjoy with real, genuine pleasure the making of them, on a

NATURE FORM

Everything you have previously supposed about a dressmaker could make you can make your own clothes if you but have a dressform that's a duplicate of you.

Avoid the dresses here of trying to fit yourself, and let the dressmaker once trying on yourself until complete.

Hundreds of gowns in Los Angeles are now coming in this manner, wearing perfectly. It is the other day that they only enjoy the effort made in thus saving

CALIFORNIA WALL PAPER CO., 816 So. Broadway.

Councilman Betkouski on Palmer street.

Rose Attacks Earl.

Henry H. Rose, candidate for Mayor, issued yesterday an open letter to the voters in which he caustically arraigned E. T. Earl and charged him with dominating the "invisible" government of Los Angeles.

Rose declared in his letter that he was prompted to become a candidate for Mayor because of the manner of Earl's alleged hypocrisy and political bosh to Los Angeles and its future welfare and prosperity.

"Los Angeles has had an 'invisible' government for the past four years."

"Rose's candidacy affords an opportunity for the overthrow of this government and its leader, Earl, and an independent, clean, moral business administration."

Street meetings were held in Boyle Heights last night by the Rose spring squadron. Noon-day meetings were held yesterday and will be continued until election day.

MEETINGS TODAY.

3 p.m.—Rex Arms apartments, No. 945 Orange street.

Mrs. F. E. Engstrom, hostess.

Speakers, John W. Shenck, Alexander MacKeigan, Mrs. Charles Farwell Edison.

3 p.m.—Residence of Mrs. Eustace Moore, No. 3410 Glen Alpine drive.

3 p.m.—Residence of Mrs. Summerville, No. 4522 South Figueroa street.

7:30 p.m.—Residence of Mrs. Anna Hartley, No. 451 West Forty-seventh place.

8 p.m.—Bimini Hotel, Vermont avenue and Second street. Speakers, J. S. Conwell and Edgar German.

that it is of vital importance to the city that he be elected. I am firm in the belief that he will give a clear-cut, straight-forward and most efficient administration."

Stands for Honesty.

M. L. Carter, 410 Title Insurance Building, believes in John Shenck's candidacy, "because he stands first, last and all the time for honesty."

AN EFFICIENT MAYER.

Elbert Wing, No. 2156 West Adams street, thinks that "John W. Shenck should be elected Mayor because he will be an efficient, fearless and impartial executive. He will maintain the present efficiency of the police and fire departments. He is familiar with the aqueduct and harbor affairs."

HE CALLS THIS TURN.

C. E. Dresser, No. 434 Citizens' National Bank building, says: "I believe that John W. Shenck will be a good Mayor and worthy of the support of all broad-minded citizens. The present important issue is between a move toward clean politics or incompetency, graft and degradation."

MAN OF INTEGRITY.

Mrs. J. G. Moodie, No. 1442 West Forty-seventh street, declares that "Mr. Shenck meets the demand for a young man of integrity, with a knowledge of the city affairs. He is workmanlike, the people who work for him are a clean, well-governed city."

A HIGH CLASS MAN.

Percy H. Clark has this to say of the Shenck candidacy: "I believe that Mr. Shenck should be elected because of his intimate knowledge of the large enterprises the city has under way. The man of the high class character of the majority of the citizens will not be controlled by any man, and no private interests will have undue influence."

Shenk Enters as Guest.

John W. Shenck was a luncheon guest yesterday at the Union Club, when the Beta Theta Pi fraternity honored the future Mayor. On Friday at the same club Mr. Shenck will be the guest of the Michigan University alumni at a luncheon in his honor.

Choice of Evils.

Roger Page for the affirmative and H. A. Goldman, editor of the Jewish Herald, for the negative, will debate the proposition, "Resolved, that Socialism is the only progressive movement in the city." The affirmative will be supported by Alexander MacKeigan, Municipal Conference candidate for Council, and Edgar German, pres.

A meeting for women will be held at 3 o'clock p.m. at the home of Mrs. Eustace Moore, No. 3410 Glen Alpine street, and another at the residence of Mrs. Anna Hartley, No. 453 South Figueroa street.

The evening meetings are at 7:30 p.m. at the residence of Mrs. Anna Hartley, No. 451 West Forty-seventh place, and at 8 o'clock at the Bimini Hotel, Second street. J. S. Conwell has this to say of the speakers: "The speakers are to be J. S. Conwell, Municipal Conference candidate for Council, and Edgar German."

The sample ballots have come from the press and are being mailed to every voter in the city. The only woman candidate for Council has unseated by the heartless printer and the name of Frances N. Noel, Social City Attorney. Shenck says the typographical error will not invalidate the ballot or Mrs. Noel's vote.

GOOD REASONS.

CITIZENS SPEAK OUT.

At Municipal Conference headquarters daily expressions of confidence in Shenck and the Conference ticket are being received. Mrs. Randal Hutchinson, No. 2517 Menlo avenue, makes it plain:

"In the nomination of John Shenck for Mayor we have been shown that he is a man of high character and that he is not afraid to stand up for what is right. The right kind of man do not shrink from office. I admire Mr. Shenck for his absolute devotion to duty, and consider, because of the strong moral reason,

Political Luncheon.

Mrs. John W. Shenck was guest of honor at a luncheon yesterday given by Mrs. Preston McKinney at No. 1333 Meridian street. Mrs. McKinney's pictures on velvet and ribbons were used on place cards. Among those present were Mrs. Raymond Heddinger, Miss Alice Lohr, Mrs. F. E. Chapman, Mrs. W. H. Moore, Mrs. Lorine Hollingshead, Charles Gobel, Mrs. Joseph Minster, Miss Nell O'Brien and Miss Helen Smith.

VISALIA.

VISALIA, May 27.—Visalia gets credit again this year for the first commercial shipments of early peaches to the city markets, regular consignments of the fruit having started last week. The fruit going to market is now in full bloom and is available in nice color and flavor for this season of the year. Small shipments of apricots are being made. First peaches offered in the cities brought \$2.50, while the apricots brought \$2.25.

ECONOMY.
France has reduced the tariff on horse meat. Wonder when they will begin eating their discarded automobiles?

SELF-PROTECTION.
A Chicago woman advises her sex to dress more modestly than present fashions demand. We are afraid this appeal will only be appreciated by the very homely.

CARNATIONS.
These bright flowers have been selling on the streets all year for 5 cents a dozen. At present they are fresh and lovely. They share the extra beauty of all flowers in California this spring. Redondo ought to be called Carnation City, as the Japanese there have acres of these bright blossoms.

WAIT AWHILE.
The man who owns Monticello, the home of Thomas Jefferson, will refuse to sell it, even if Congress endeavors to acquire it. Our Democratic statesmen should wait until Mr. Wilson has firmed up the tariff a little longer. Perhaps the principles of Jefferson will then be less popular.

MAYBE NOT.
Hamilton Wright Mabie strikes a key note when he says that Japan does not want war and that it would be brutal to put that country in a position where it would have to fight in defense of its national honor. Surely America cannot lay claim to a superior civilization if it is guilty of such an offense.

THE CANAL CONTROVERSY.
Mr. Frank Fenoli, the chief law officer of the Isthmian Canal Commission, in a scathing review of the claim of Great Britain that the United States has no right to exempt American coastwise ships from the payment of tolls, says:

"Great Britain, in effect, is claiming a servitude upon our property—the canal—and a limitation on our sovereignty. Her claim, if valid, means that we must tax our imports and exports and our coastwise trade passing through the canal equally with the trade of other countries using that waterway. That means a serious restriction upon the sovereign right of the United States to regulate their fiscal and economic policies as they may deem best."

The restriction would amount to a limitation on the use of all our ports, as well as a servitude imposed upon our territory.

"It is a well-established rule of international law that one sovereign cannot claim a servitude on the territory of another except by compact, and 'If a dispute occurs between a territorial sovereign and a foreign power as to the extent or nature of rights enjoyed by the latter within the territory of the former, the presumption is against the foreign state, and upon it the burden lies of proving its claim beyond doubt or question.'

"In summing up the objections to the British claim, we might say that the territorial claim which Great Britain has at the Isthmus came from the treaty with Colombia of 1846 and not from the Clayton-Bulwer convention or the Hay-Pauncefote treaty, and neither of these affected the rights so held by us; that the terms of the Hay-Pauncefote treaty, when properly construed, do not sustain it; that in abandoning the explicit language of the Clayton-Bulwer convention, which clearly prohibited a discrimination in favor of the United States, England lost her right to claim at this time equality with the United States in the use of the canal for her vessels."

"Concerning submission of the claims of England to The Hague tribunal, it may be said that the treaty with England does not require all questions that may arise between the two countries to be submitted to The Hague. The treaty limits submissions to 'differences which may arise of a legal nature or relating to the interpretation of treaties, etc.' and it says that 'either of the parties is bound to submit questions affecting its vital interests, its independence, its honor, or the interests of third parties.'

"The issue made by England does affect the vital interests as well as the independence of the United States, inasmuch as the English claim imposes a limitation upon our sovereignty and a servitude on our territory so as to materially impair our right to freely adopt such economic and fiscal policies as we may deem best, and to take from us our liberty to use our own with freedom. The question is a vital one and the most serious importance to the people of the United States, because all of the maritime powers of the world are equally interested with England in obtaining a decision adverse to the United States. And so, we are expected to submit the issue to a tribunal that is controlled by these same maritime powers."

"With the income tax a law it will be necessary for the government to return more than a million dollars collected from corporations for the coming year. Was it the late J. Pierpont Morgan who declared that it is impossible to unscramble an egg?"

"What method of shorthand do the folks use in the 'movies' when they write letters warning somebody that a relative is coming to call or that a new school teacher is coming to the settlement? They are certainly something for speed."

"Postmaster-General Burleson says he is strong for harmony and in order to show that he means what he says has changed the color of postal cards from white to green so as to harmonize with the 1-cent stamp."

THE PATERSON ANARCHISTS.
Leaders of the I.W.W. (Industrial Wreckers of the World) continue to rage with their mouths in Paterson, but thus far they have not made headway toward carrying out their threat to plunge the city into darkness for two nights.

Idaho Haywood, who a few days ago declared the mob force of the I.W.W. superior to the power of all the courts (including the Supreme Court of the United States) has remained away from Paterson since that break. It may be that, after all, he fears the law which he professes to hold in contempt.

In the meantime Carlo Tresca has been indicted on the charge of unlawful assembly. When an officer tried to arrest him it was learned that Tresca had fled to New York. Alie Scott, editor of a Socialist organ printed in Paterson, has been indicted on a charge of incitement to lawlessness through an article advising and urging the I.W.W. to resist city and State authorities by all means at their command. Both he and Tresca are awaiting trial on similar charges previously made.

A mass meeting of the I.W.W. was held, not in Paterson, but in a small town near that city, where police interference was not to be feared because the town's police force is merely a nominal one. The speeches were highly incendiary, but the proclamation of the superiority of the I.W.W. over the courts was not repeated. When the meeting was over Haywood and other I.W.W. leaders took the precaution to go elsewhere than to Paterson.

The programme declared at the meeting was to forcibly prevent the return to any of the mills of any employees who might desire to go to work. The I.W.W. presumes to restrain by violence the exercise of the inalienable right of individuals to make a living by honest work.

Upon Sinclair (Roosevelt's friend) former muckrake magazine writer, whose occupation has (like Othello's) been gone for some time, appeared on the scene and added to the incitement bellowed by the others. Why was Lincoln Steffens, the self-styled McNamara's confession securer, absent from this congenital feast of incitement to violence?

It was expected that serious trouble would develop the next morning when attempt would be made to carry out the threat to prevent mill operatives from going back to their employment. Some of them have gone back. The attempt was made, but the police had the situation well in hand and promptly arrested a number of those who tried to make trouble.

There is need of firmness and aggressiveness on the part of the authorities at Paterson. Quite a good deal of this has been bravely shown, but more is needed. Further, tolerance, in Paterson or out of Paterson, of incitement to lawlessness should be interpreted by the anarchists as evidence of fear. They must be shown, in a way that they cannot fail to understand, that the law is supreme.

Los Angeles has been saved from trouble similar to those at Paterson by the mailing of Harriman on December 5, 1911, and again on May 6, 1912. The nail must be clinched and the danger further avoided by the defeat on June 3 next of every Socialist candidate for the City Council (Haines, Reed particularly) especially as P. H. McCarthy, the unscrupulous labor-union leader of San Francisco, has been here advising the wage-earning voters otherwise. Labor unionism suffices itself when it follows Socialist leaders. There is a very faint line between militant Socialism and anarchy of the Idaho Haywood brand. Union labor should not put itself in the way of dragging over this line.

EFFECT OF THE NEW TARIFF.

There is a difference of opinion as to the immediate effect of the Wilson-Underwood tariff law upon the manufacturing and agricultural industries of the nation. Many believe that the consequences which followed the election of Cleveland and a Democratic Congress in 1892 will find repetition in closed factories and foundries and a million workers out of their jobs in case the Wilson-Underwood bill becomes a law.

Congressman Mondell of Wyoming apprehends that it is the farmers rather than the factory hands who are likely to be disastrously affected. He says:

"It is in the range of possibilities that the mighty momentum of unparalleled prosperity, the wonderful recuperative qualities of a marvelously energetic and prosperous nation, the startling effect of great combinations of labor and capital compelled in self-defense to make the best of the situation, the sustaining energies of great industrial enterprises which have, in a measure, escaped the verdict of destruction which has been pronounced against others, the powerful influence of the press and of enterprises peculiarly favored, may be potent enough to prevent for a time the complete paralysis which the measure threatens, and thus temporarily retain its power for the party responsible for this bill."

It has been suggested in this connection that great industrial corporations such as the steel trust, for instance, could and would enter into partnership or a 'gentleman's agreement' or form a great trust with English and Belgian steel manufacturers that would control the steel-making business of the world. The foreign manufacturers would raise the prices of their wares and abandon the American market. The American manufacturers would hold the present prices and abandon the South American, Asiatic and Antipodean markets. The consumers would obtain no relief, the steel-makers in America and Europe would lose no profits, the workers in the steel mills would receive the same wages and the only sufferer would be Uncle Sam, who would—as is usual—when Democracy is in power—be the bunched gentleman from the rural districts, and lose a large percentage of the duty he now receives from importations of steel goods.

The same conditions will apply to the manufacturing of textile fabrics and the outcome is likely to be the abandonment of small manufacturing industries all over the country, and particularly in the towns and small cities of the West, with a resulting centralization and combination of business in great industrial centers."

A necessary corollary of this growth, tendency and movement will be a checking of that tendency back to the farm which has been noted in recent years, and a constantly-increasing tide of movement from the farm, the field and the ranch to the great centers of manufacture. Carried to its logical conclusion, this system would ultimately

lead to the support of your Congressmen?" "How many votes can control in a campaign?"—Sample questions in the proposed civil service examination of fourth-class postmasters.

A New York physician declares that not

An Unwelcome Guest.

A BURDETTE TALK ON "WHITE SLAVERY."

Concerning the Slaves and the Slavers. I have received the impression, not by any means indelible, from my reading of the newspaper reports of Purity Conventions and Social-Evil Committees that all the white slaves are women and all the white slavers are men.

Now, there is no punishment too severe to be inflicted upon a man who makes prison out of a woman's person. They are of all criminals the most detected by the police. Their crime is worse a hundredfold than murder; the death penalty would be none too severe. The best thing that could be done with such men would be to kill them.

But reading in an old book which we should all of us read and study a great deal more than we do, I find that the slave is as apt to be a woman as a man. It is a good book, carefully and impartially written. It is the book which tells and tells more about human nature; probes its motives and analyzes its actions more accurately than any other book in the world; tells the truth about men and women more frankly and more fairly.

It has no fads, freaks or frenzies of reform. Indeed, most of the modern schools and theories of reformation of the human race are invented by the reformers to get around the plain truths of this book. It makes life so simple and straightforward and plain that the modern man of many ologies and things has no patience with it. Even the children read it—little children, and what is the use or sense of a book which everybody can read?

An Original Case.

Well; reading in this book I came across an ancient account of the original case of human slavery. As far as you're a living creature, the slaves were women and the enslaved creature was a man.

It was the record of the original case upon which all the others in all the succeeding generations have been based. There were three parties to the transaction, as usual; a man, a woman and the devil. The man by her persuasion was easily seduced from the path of rectitude. The inquest, which followed immediately upon the commission of the offense, brought out the following facts, which have never been denied:

The woman took of the fruit, and did as she was told also unto her husband, and he did eat.

Heavy Life Sentences.

The sentence of the court imposed life-long and multiple servitude upon the woman and made child-bearing which should be the natural joy of her life an added sorrow; a sentence that has been strictly carried out for nearly seven thousand years.

The man was sentenced to hard labor, a life term, with the introduction of thorns and thistles into his crops to make the work harder. He was condemned to eat bread made bitter with his sweat, in spite of all the efforts of all the societies organized to 'abolish poverty.'

A demonstration of the 'eye-comfort,' as this latest development in arc lighting is called, was given by the Union Electrical Company at their offices in Park Street, Southwark, England.

The light claims to be, as nearly as possible, color true, and should be a boon to drapery houses and stores.

The device consists of an inverted lamp with reflectors which project the rays of light upwards to the ceiling of the shop, whence they are diffused downward over the floor.

The experiments demonstrated yesterday show that there is at last an artificial light by which color matching may be successfully carried out, and an official of the Union Electric Company said that already the 'eye-comfort' system of indirect arc lighting has been installed in a large number of shops in England, on the continent and in the British oversea dominions.

The arc lamp is, as a rule, a rather ungainly article, but in the case of this new device, art becomes the handmaiden of science, and all that can be seen of the exterior design can be adapted very inexpensively to harmonize with any existing decorative system.

After an ordinary electric light for the simple little matter of choosing a glass to match the mavis of his socks, the investigator found that by the light of the 'eye-comfort' he had nothing but a lot of greys and blues in his hand.

Four-Millionth of an Inch.

[Answers:] At the National Physical Laboratory at Teddington is a machine that will test the fitting of a bar or plane or screw to the quarter of a millionth part of an inch.

This is the finest testing contrivance of its kind in the world, and took close on to five years to make. By this contrivance the measurements of different parts of machines used in various manufactures can now be tested so accurately that what is known as the waste power in the working of a machine involved by inaccurate measurements can be reduced to practically nil.

From all parts of the country manufacturers are constantly sending different parts of machines to have their measurement accurately tested. So finely and delicately is the machine made that it has to be operated under glass in a double room.

The testing device is worked by electricity, and it can quite readily recognize the shrinkage or expansion which takes place in a piece of iron or steel that has been taken from a room without a fire and put in a room where there is one.

Synthetic Tannin Discovered.

[Consular Reports:] What is said to be a successful synthetic tannin has been discovered by Dr. Edmund Stiasny, assistant professor of the leather industries laboratories of the University of Leeds. The new tannin, which is called neradol, is made from tar distillation products, the synthesis being carried out by sublimating cresylic acid and combining it then with formaldehyde. The white color of the neradol-tanned leather and the brightening and bleaching effect of the neradol when used in combination with other tannins (vegetable and chrome) are especially noteworthy.

Recently a committee appointed by Congress to inquire into the methods of purchasing supplies for the District of Columbia reported that the establishment of a general storehouse was the only important improvement that could be made, giving as their reasons the following:

That with numerous delivery points for supplies large dealers were prevented from bidding on supply contracts and that a general storehouse would enlarge the field of competition and insure lower prices.

That the concentration of delivery points would afford proper facilities for the enforcement of adequate specifications and permit of uniform inspection of all deliveries.

That the establishment of a general storehouse would bring the District of Columbia into line with general commercial and industrial practice and would be at once a business-like arrangement and profitable investment.

"Neradol is somewhat similar to ordinary tanning extract, and forms a light-brown solution in cold water. It is a pure tannin of 30 per cent. strength according to the hide powder method, and can be used in smaller quantities to obtain the same effects as those at present produced by the ordinary agents.

"Dr. Stiasny has made a series of tests on hides and sheep and calf skins and has recently showed samples of leather ranging from light tan to sole leather produced either with synthetic tannins alone, or with chrome, wood-pulp liquor. In every case the product appeared to be satisfactory, the leather being supple, fine and strong.

In the case of the light skins, while the sample of insoluble belly was flexible and clear and light in color. However, the synthetic product is not likely to greatly interest the sole-leather manufacturer while it is the custom to sell such leather by weight, as the new tannin does not give weight; in fact, it produces a light tonnage, and is, therefore, more likely to find commercial application in the manufacture of light leathers. But it is said to be useful in the early stages of sole-leather tanning to prevent draw grain.

Painted "Innocence."

You see, we mustn't take it for granted that she is of this nature is merely a fiction. Because a very wise man was so impressed by it that he wrote a little booklet of "Advice to Young Men," in which he especially warned the young man against the evil woman. "The father of the tongue of a strong woman," Solomon writes, "he discerned among the young a man of understanding and behind the head him a woman who caught him and kissed him and lured him with her impudent face." And the young man "went after her as an ox goeth to the slaughter, as a bird hasteth to the snare."

Not a word about the ox contributing to the delinquency of the butcher. The wise man tells the youth that the delinquency of this woman is her stock in trade. "She hath cast down many wounded; yea, many strong men have been slain by her."

"She increaseth the transgressors among men."

Somebody blundered at Bahia.

FORTY-FIVE NEW ELECTRIC CARS

TWO SOLID TRAINS OF BIG RAILROAD CARS ON ROUTE HERE.

Imperial Valley to Out Large Freight Motor and the Railroad Men Hurrying Thither—Double-Header Hearing at Hodges—Traffic Men Return.

Over half a million dollars' worth

of new equipment for the Southern

Pacific's electric lines is due

within a week.

The shipment, which

consists of forty-five sub-

cars for the Pacific Electric, and

of the same kind for the peninsula

line, is coming West in two freight

trains. When last heard of the trains

were in Texas. Allowing for the usual

delays to which equipment shipments

are subjected, the cars should arrive

here by the middle of the coming

week at the latest.

Though perhaps the largest single

shipment of electric line equipment

ever routed to the Pacific Coast,

the real feature of the shipment is that

the cars are coming direct on their

own wheels instead of being hauled

and being stopped when a bridge

crossing through the calf of his leg.

Poverty and a love for his wife

had led him to commit the robbery.

The application for a writ of habeas

corpus was filed by Frank Blair

free on five years' probation.

Blair wept profusely when

telling why he bought a gun

and a revolver.

The application for a writ of habeas

corpus was filed by Frank Blair

free on five years' probation.

Blair told the judge, in answer

that he had been paid about \$100 for

painting the Salem Congregational

Church, Rev. R. H. Esquith, to

the value of \$100.

There is danger of your man

upon others," said James P. Flanagan

meditatively. "Law does not go

through any vindictive bill of even.

It has two objects, to protect

the person offending from

others from committing the same

You owe much to the law,

Consult her more in the future

Father Brady very often. He

not mean it is necessary to do

your obligation, but look to her

as well as to the protection

of your wife.

POVERTY A PREDICATE.

The report of the protest, which

showed that Blair did not tell the

entire truth when he pleaded his

poverty as his motive in having

the car taken, was denied by

the Salem Church, which paid him

more than \$40, the report stated, and

he was promised additional work if

he turned bandit.

Mrs. Blair made a very short

speech. She said they were

arrived in the city.

Funds ran low.

She said on the day of March 25, her husband had to

work long and fervently and with a

"lot of agony" on his face, to

make the night.

"He did not come home," said

Blair soothing his infant as he

told the judge. "I had a visit from

the police, and he was arrested for

hiding a car. I slept fitfully through

the night. In the morning I paid a

visit to the hospital.

He had to go to the hospital

and was good to me.

I have been very poor.

No one in the world loves me.

I would rather die than

without him."

He was held in the

Imperial Valley.

The car was held in the

Imperial Valley.

WEDNESDAY MORNING.

Early.

FORTY-FIVE NEW ELECTRIC CARS.

TWO SOLID TRAINS OF BIG RED ONES EN ROUTE HERE.

Sausal Valley to Cut Large Freight Motor and Railroad the Hauling Thinner—Double-Decker Hauling at Redlands To-Day—Traffic Men Return.

Over half a million dollars' worth of new equipment for the Southern Pacific's electric lines is due here within a week. The shipment, which consists of forty-five new suburban-type cars for the electric and eight of the same kind for the peninsula, is to be hauled West in two freight cars.

When last heard of the train was en route to Texas. Allowing for the usual time in which equipment shipments are collected, the cars should arrive by the middle of the coming week at the latest.

Though perhaps the largest single shipment of electric line equipment ever sent to the Pacific Coast, the nature of the shipment is that the cars are coming here on their own wheels, instead of being transported in boxcars and truck trailers. All of the cars are the product of the Pacific Car Company of Newark, Calif.

The forty-five Pacific Electric cars will be distributed between the San Joaquin and Pasadena lines. It is expected that they will be ready for service by the middle of June. With the arrival of the cars, the new equipment ordered by the Pacific Electric under its recent \$1,854,511 order, will have arrived.

The other equipment now here consists of one sixty-ton electric locomotive, one sixty-ton construction crane and one of the center and end cars.

A good part of the remainder of the order will be for the San Joaquin line. This is to be shipped in the interurban type and will be up to the standard of any operated on eastern electric lines. Not only will they be larger than any ever seen here, but they will be equipped with toilets and other conveniences, as well as guarded for con-

"Gone to Imperial." Belived freight men are manifestations of the annual interest in the Imperial Valley. The valley is short to cut melons. Specifically, the valley has a cantelope this year that is estimated at \$10,000 to \$20,000 carloads. One of these cars of melons will be taken to Chicago for distribution to other cities. The carload rate on melons from Imperial Valley to Chicago is \$1. A little figuring will show the naturally, \$1,000 in freight.

Mr. F. Haworth, No. 2014 Michigan Avenue, reported that his son Fred, 13 years old, had run away from home. The boy, according to his mother, left home stating that he was not coming back. The mother is anxious concerning him and asks the police to find him.

P. A. Evans, No. 146 South Rio Street, told the police that a burglar entered his room some time Monday night and stole a plate containing seven gold teeth. Nothing else in the room was taken, but the loss of the teeth is a severe handicap to the owner.

Boys Day at Redlands.

Commissioner Thelen of the State Industrial Commission will hold a double hearing in Redlands at 10 a.m. today. One hearing is of the case of the Southern State Industrial Commission for the right of the commission to inspect and regulate the operations of the same company to regulate work permitted by franchises in Riverside County.

Benjamin Held at Redlands. Benjamin held at Redlands on April 23, he received the news that he had been held in a cell at the county jail, and was about 5 o'clock when he was released along in the shadows of the jail.

He held a gun and

the sheriff forced him to put up the hands.

I asked the man to give up his revolver. He did not want to be shot and had a large sum of money in his pocket.

He made a noise and started down the stairs.

Run, He Shot.

He had killed the man, said the clear-cut young fellow.

He did not like to do this. I first told him to stop, then I ran up the stairs. Finally, he turned and I followed him over the wall of blood lying behind a door. I turned to him and said, "Don't shoot him to the box after he has given treatment at the hospital."

He was submitted by Deputy

Attorney Venable.

Venable is a man of influence and he held up a record of other successful cases.

The defendant, Dennis, made a noise.

He was in reply to a young

man who said the court would not like to do this. I first told him to stop, then I ran up the stairs. Finally, he turned and I followed him over the wall of blood lying behind a door. I turned to him and said, "Don't shoot him to the box after he has given treatment at the hospital."

Victor-Victrola.

A new Southern Pacific time card was presented markedly improved for this city, it is in the making. The card will be effective June 1. Among the changes will be to eliminate, as far as possible, schedule changes have been submitted to management by local officials for final adoption.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena.

MEMORIAL DAY OBSERVATION.

Crown City Veterans Complete Programme.

Board of Education Campaign Opens With Promise.

Oak Knoll Millionaires to Have Heating Service.

PASADENA, May 28.—Full arrangements were made yesterday for the observation of Memorial Day, next Friday. The programme was announced by the Grand Army committee of L. C. Turner, William Springer, A. A. Nash, S. J. Shaw and Robert Lyons. There will be exercises in the morning at Library Park; in the afternoon the graves of the soldier dead will be decorated; in the evening there will be exercises at the First Methodist Church.

The parade will form at North Broadway and Colorado street at 3 p.m. in the morning. The march will be sounded by the Grand Army buglers, Charles Bevill and Frank Cox. G. M. Burlingame will act as grand marshal. The line of march will be west on Colorado street to 5th street, north on 5th street to Union street, east on Union to Raymond avenue, and north on Raymond to Library Park. There the veterans will open ranks and the school children will pass between the lines distributing flowers. The programme for the afternoon follows:

Music by the Municipal Band, invocation, Rev. F. G. H. Stevens; address of welcome, City Commissioner R. L. Metcalfe; music, G.A.R. Drum Corps; song, "The Colors"; music, G.A.R. Drum Corps; address, Comrade M. W. Hulsey; music, Municipal Band; G.A.R. ritualistic exercises, J. H. Young, commanding; music, G.A.R. Drum Corps; address, Mrs. S. W. Odell; music, G.A.R. ritualistic exercises, Mrs. M. Hamblin; president, ladies of the G.A.R. ritualistic exercises, Mrs. H. Hamblin; salute, Sons of Veterans; Charles A. Mechanics commander; "Taps" and "America" to the audience.

"Resolves" that in addition to the march to Library Park which Chairman Metcalfe sent on May 24, the 4th of the sad accident at the Auditorium in that city, we, as a Board of Commissioners, express our deep sympathy with all those suffering because of that accident.

"Adopt Resolutions." The City Commissioners yesterday expressed the sympathy of Pasadena for the injured and bereaved of the Long Beach disaster by adopting the following resolutions:

"Resolved, that in addition to the march to Library Park which Chairman Metcalfe sent on May 24, the 4th of the sad accident at the Auditorium in that city, we, as a Board of Commissioners, express our deep sympathy with all those suffering because of that accident."

"We call attention to the fact that many of our own people were victims of the accident, and we would suggest that all our citizens shall have in mind any action which may contribute to the alleviation of the suffering of those immediately concerned. Such events call upon the sympathy of all."

Two of the victims were buried here yesterday. The funeral of Mrs. Ada J. Longfellow was held at the casket of Ivan J. Wrennen at 10:15 o'clock in the morning, and that of Miss Annie H. Longfellow at the same place at 1:30 o'clock in the afternoon.

"To Be Comfortable."

Residents of Oak Knoll, one of Pasadena's millionaires' residential sections, are congratulating themselves. The Los Angeles Gas and Electric Corporation yesterday made application to the City Commissioners for permission to lay a two-inch main line and a gas line in the park.

Last winter the residents of this part of the city complained that although they had expended large sums in equipping their mansions with the very latest in heating apparatuses, they were as cold at times as if they had none at all. The reason they alleged for their discomfort was that the gas meter was so small as to be inadequate to meet the demands made on it, which necessitated such high pressure that there was no telling whether they were to wake up in the morning and find their houses as hot as ovens or as cold as refrigerators. The matter was referred to the Board of Education. The statement follows:

"No greater responsibility can come to the citizens of any city than the election of a Board of Education. Feeling that a careful and kind consideration should be given to the women presented for petition, the Women's Civic League invited representatives of the Ministerial Union, the Twilight Club, the Shakespeare Club, the New Century Club, and the Federal Club to a meeting and resolutions to meet in conference and present to the Board of Education the names of such candidates as would be capable, loyal and well-balanced board."

The Women's Civic League was represented by Mrs. Robert J. Burdette, Mrs. F. B. Wetherby, Mrs. Louis Mitchell, Mrs. J. L. Atkinson and Mrs. Leo G. McLaughlin; the Ministerial Union by Rev. Charles H. Scott, Rev. E. E. Hinckley and Rev. Ernest H. Lash; the Shakespeare Club by Mrs. Calvin S. Hartwell, Mrs. Charles E. Ashcroft and Mrs. E. E. Carder; the New Century Club by Dr. J. Strothard White, and Sanford L. Porter; the Federation of Parent-Teacher Association.

RECENT DEATHS.

Damian Emorie, formerly of Co. H, Second Kentucky Cavalry, a native of France, admitted from Santa Monica, Cal., in 1902, died May 24, aged 55.

Edward McCarthy, formerly of Co. H, Sixth United States Infantry, a native of New York, admitted from Santa Monica, Cal., in 1905, died May 25, aged 77.

John Delahanty, formerly of Co. H, Second Kentucky Infantry, a native of Ireland, admitted from Santa Monica, Cal., in 1905, died May 26, aged 55.

Frank May, Mrs. S. W. Odell and W. S. Grimes for election to the three-year term of the Board of Education. The statement follows:

"No greater responsibility can come to the citizens of any city than the election of a Board of Education. Feeling that a careful and kind consideration should be given to the women presented for petition, the Women's Civic League invited representatives of the Ministerial Union, the Twilight Club, the Shakespeare Club, the New Century Club, and the Federal Club to a meeting and resolutions to meet in conference and present to the Board of Education the names of such candidates as would be capable, loyal and well-balanced board."

The Women's Civic League was represented by Mrs. Robert J. Burdette, Mrs. F. B. Wetherby, Mrs. Louis Mitchell, Mrs. J. L. Atkinson and Mrs. Leo G. McLaughlin; the Ministerial Union by Rev. Charles H. Scott, Rev. E. E. Hinckley and Rev. Ernest H. Lash; the Shakespeare Club by Mrs. Calvin S. Hartwell, Mrs. Charles E. Ashcroft and Mrs. E. E. Carder; the New Century Club by Dr. J. Strothard White, and Sanford L. Porter; the Federation of Parent-Teacher Association.

TROPICO.

TROPICO, May 28.—These will be a departure from the regular order of holding the memorial services in this valley this year. On account of the advanced age of a number of the old veterans the services will be held in the Grand Army Hall on Glendale avenue shortly after the decorations of the graves of Grand View and Forest Lawn cemeteries. The younger members of the post will be expected to decorate the graves, while the members of a more advanced age will gather at the hall in time for the services.

McPhail the direction of Contractor Peter L. Ferry the work of improving Park avenue from Glendale avenue to San Fernando road has almost been completed. This road is the rock macadam variety and is to be one of the finest streets in the city.

KILLED IN ACCIDENT.

POMONA, May 27.—Mrs. A. A. Thompson of Azusa was killed here today and her husband seriously hurt when their automobile was struck by a machine driven by a son of Elmer Reynolds, Glendale, Calif. The accident occurred on the Foothill boulevard.

The Thompsons were in a small car when the big Reynolds car struck the lighter machine. Mrs. Thompson was hurried from the car and injured so seriously that she died before she could be taken to the Pomona Hospital. She will be buried in Glendale but will recover. An inquest will be held and young Reynolds' responsibility determined.

Street Superintendent Ed Baker is doing much street improvement work about the city. The work is being performed with oil and rolled from Gary to Towne avenues and other thoroughfares in the south part of town are being given attention.

Under the auspices of the Hadden-Tucker Bible class a Bible study conference, which will be participated in by the members of the church, is to be held in the town hall on June 1. The conference will be held on Monday evening, June 1, to continue through Wednesday evening. The conference is in line with a nation-

wide movement to improve the standards of the Sunday school through systematic instruction. The conference will be held in the auditorium of the First Methodist Church on June 1.

JAPANESE PROVES A HERO.

Unable to Swim he Combats the Elements and Saves Himself and Small Son at Santa Barbara.

[ST. INVESTIGATE WERE TO THE TIMES.]

SANTA BARBARA, May 27.—[Exclusive Dispatch.] By an almost-human effort, T. Kamimoto, a small Japanese, saved himself and his 3-year-old son from drowning this morning when he was plunged into the deep water off the Commercial pier by a frightened horse which carried the wagon in which they were seated over the edge of the pier. Kamimoto cannot swim, but on coming to the surface after being precipitated beneath the water, he reached out for his son, who was about to sink again, and in a heroic struggle, managed to keep himself afloat while holding his son above his head until rescuers reached him.

How he succeeded in keeping from sinking is a mystery to witnesses of the accident. Neither the man nor the child suffered any serious effects from their experience, as both were able to walk home soon after being drawn ashore by a wharf.

Kamimoto had gone down to the pier with his delivery wagon after some freight. While waiting on the east side of the wharf house, the horse suddenly took fright and commenced to run, carrying the wagon over the edge of the pier. The wagon, which was on an oil tank and had a flat bottom, was thrown into the water, and was pulled on the wall to the pier by the horses.

It is believed that Kamimoto, who was in the pier at the time, was the first to notice the accident, and that he was the first to jump into the water.

Kamimoto is a native of Japan, and has been in the United States for 10 years.

He is a cook, and has been engaged in the service of the Japanese Consul in Los Angeles.

AN ANGRY BOSS PLANS REVENGE.

San Bernardino Threatened With Recall Fights.

Dictatorial Mayor Arouses Hosts of Enemies.

Judge Bledsoe May Become Next Federal Jurist.

SAN BERNARDINO, May 27.—As a result of the turning down of the name of "Boss" E. J. Gilbert last night by the Council for members of the Board of Water Commissioners, recall proceedings are being talked by the backers of Mayor J. W. Catich against some of the Councilmen Chambers and Smith of the Third and Fourth wards being marked.

On the other hand, if such a plan is attempted, the opponents of Mayor Catich will, without doubt, succeed in a recall against him because of his general attitude since he assumed the position at the head of the municipal government.

In addition to turning down Gilbert's name last night, the Council, by an unanimous vote, refused to recognize the committee list as previously named, and voted to adjourn, and proceeded to name an entire list of new committee, "in lieu of any other committee."

The methods employed by the Council to confirm its seat have resulted in a great amount of opposition among the members of the Council.

He has refused to hold conferences with them, and has sought to have the Council disbanded or plan that he might initiate.

The climax came in the refusal of Judge B. F. Bledsoe of this city to confirm the name of E. J. Gilbert, one of the Goo-Goo Club members, and who is the power behind the throne of the Catich camp.

He held an appointment as insurance tax appraiser under the Johnson State administration, but announced that he had resigned that he accepted the city job which was re-filled him.

BLEDSON SLATED.

Judge B. F. Bledsoe of this city is said to be slated for the second Federal judgeship in Southern California, the bill for which has already passed the House.

The next court will be created in the near future. It is probable that arrangements will be made with the inaugurations of a new department for holding sessions in a new building and San Diego, instead of all sessions of both departments being held in Los Angeles. Such a plan would be a great convenience to other sections of Southern California.

NEWS BRIEFS.

Orange County Supervisors Adopt Ordinance Imposing Penalty on Those Who Would Slay.

SANTA ANA, May 27.—Today the Board of Supervisors passed an ordinance making it a misdemeanor to "wound, maim, take, capture, cripple or shoot" any seal or sea lion within the jurisdiction of Orange county.

Seals are often seen along the rocky shores of the county, but they have been afforded no local protection.

Recently two or three young seal have been taken into captivity near Newport Beach.

NEWS BRIEFS.

One of the most brilliant of the regular functions will be the annual election on July 4th of the Wednesdays.

Whether Clifton-Byrne or not, the annual election of the Wednesdays will be the greatest of the year.

The election will be held at the Civic Center on June 27th.

NEWS BRIEFS.

In preparation for the building of its system of good roads the county has advertised for over \$4,000 tons of crushed rock, gravel and sand to be delivered on the Santa Fe or Pacific Electric.

It is believed that the material can be secured cheaper than way than through the county's rock crusher at the Southern Pacific.

The program was carried out by the trusting Chicago friend being swindled out of his coin.

The Chicago detective is now engaged in a search for a penitentiary term as his former friend refused to listen to overtures for a settlement out of court.

PROTECTION FOR SEALS.

Postal Card Inspector Finishes State Tour and Pays High Tribute to Morris of Ontario.

ONTARIO, May 27.—That Ontario is "chemically pure" is the substance of a statement made today by Rev. O. O. Lauter, a former local Methodist minister, now working in the interests of the Juvenile Court, who was taken into the city today investigating the sale of indecent post cards and other materials.

The county today brought suit against R. L. Hogue, contractor, and the Guardian Casualty and Surety Company, Hogue's surety for \$11,612.50, and a number of others to the county to bind the West River bridge in excess of the contract price, \$12,250. Hogue threw up the job just as it was to be completed.

BOSTON FORCES GIANTS INTO FIFTH POSITION.

(BY A. P. NIGHT WIRE TO THE TIMES.)

BOSTON, May 27.—Boston won both games of a double-header today from New York, forcing the Giants into fifth place. The scores were 1 to 9 and 5 to 2.

Mathewson and Tyler had a pitchers' battle in the first game, which was decided in an unusual way. It was in the ninth inning. Maranville, first batter, singled and went to second on Myres's sacrifice. Connolly singled to center, but a throw by Schaefer retired Maranville at the plate. Connolly got second. Schaefer singled to right, dropped his bat, and Connolly singled for home, while Burns made a pretty throw to catch him, but the ball struck Gossen's bat, caromed away from the waiting Myers, and Connolly scored.

The fine pitching of Rudolph, who went in as relief pitcher after New York had made two runs of Purdue in the second inning, and timely hits by Homan, Schaefer, and Burns in the second game. Rudolph was making the seven innings in which he pitched. The scores:

First game:

BOSTON		N.Y. P.D. A.	
Score	1	5	2
Outs	12	12	12
Time	2:45	2:45	2:45

At the Theaters.

(Continued from Third Page.)

and secondly because she is to make her bow in "The Admirable Crichton."

It goes you don't recall the play. I don't mention it is the reason in which William Gillette scored so warmly. It tells the story of some nobles and servants wrecked on a desert island, and how the real men of real women in the party were brought to light through necessity.

Adèle Bloch, who is playing the title role in "Everywoman" which is a real attraction at the Majestic, is to be the bustiest as well as loveliest stage on the stage.

What she was here before, as a soubrette on Orpheum time, her comic beauty was a real attraction, and that time she was writing a book when she is looking up some one about her to use in connection with the play. I can see this little batch of philosophy high. I understand, she is using in or volume.

The stage is a world where things are not what they seem; so is the world outside.

At this time in our life the most we find out that we have been im-
mersed in a world of lies.

A woman never knows a man until she has known him.

We cannot change our faces, but we can wait for our fates to change.

Men understand each other by their knowledge of themselves.

One sees a speck in the universe; one sees a speck in the caverns of sand.

We find the things we seek by paths we were never meant.

In this book that none of us know we are not, but we're ready to go where the bright road, where we read the last page

and that youth turns the last leaf to old age.

Chapter of childhood and a chapter of memory and a chapter of heart.

Chapter of hopes and a chapter of fears.

Chapter of triumphs and a chapter

of woes the whole world known;

and then comes a chapter of no-

Rudolph Schindlauer, the famous German actor, who has the German rights for "Romance," has made arrangements with Doris Keane, who has the leading role in this love time, to have exact duplicates made of every scene, so that Margarita and her entire cast will be copied from the jewels and dressed in the wig which she originated, in case that the German actress who has the role may appear as much as Miss Keane as possible.

Arthur Wannenmacher announces at the Majestic that William Mollie's for his leading feminine role in "High Winks" the new musical farce. Otto Hauserbach and Rudolf Primi, which is to be produced under a management.

Mollie King will play vaudeville until the May 28th, call for her voice. She will be utilized in her Winter Garden production. Her star Nellie and brother Charlie will be members of the same company.

The girl's cost of living has com-
menced. Gaby Deslys to dispense with a service of one of her maids. (P. G. Gaby's salary remains at \$2000 a week.)

George Bernard-Horwitz, who has the books of "Broadway to You" and "The Passing Show of 1918" is at work on a metropolis which he hopes will prove a success in "The Whirl." "The Whirl," the last finish the present season at the Winter Garden. "The Passing Show of 1918" will open at the Auditorium, Chicago.

PHOTO-PLAY OF MIRACLE.

PHOTO-SETTING OF AN ANCIENT STORY.

Moscow Theater Shows Unusual
[See This Week—Woman's Sym-
phony Orchestra Twenty-Five Con-
secutive Years Closed by Concert
Woman's Relief Corps Concert.

BY HECTOR ALMOT.

We had a miracle play presented at Broadway is unusual, even in a silent picture show.

At the Mozart Theater, on Grand Canal, a photo-play is shown which is not sufficiently interesting to be sold out of several months in advance. Berlin, Vienna and now in the current month, New York.

The setting is primitive.

"The Miracle" as it is called, carries one back to the glorious era of this architecture and simple faith.

A beautiful cathedral devoutly enters the church, entering the

temple, holds and anoints, steals

the host, a demure convent

and in the romantic manner of a Arabian oasis, takes her to his silent castle.

A peasant, simplicity, awakened by a Bohemian spirit, induces little Beatrice to accept like the

new Marguerite, the gift of a pearl necklace.

Miracle gives one night with a golden bower, the master of the castle, who is the son of the sun, in his golden land and leaves.

In the second act Beatrice is seen the hall of the winner, who claims as father and who, upon being re-
cognized, causes a guard to be securely tied

to a stone in the floor.

To immediately follow the chronicles of the peasant, who, having been shown by his faithfulness to the old castle, the tracks of horsemen and ar-
row in time to aid Beatrice, who is driven through a window and

leaves on a rope from the high balcony.

Witch finally conquers and here is

a miracle. The madonna of Heaven, grieved at her daughter's belief in her, has seen

the new life come into life.

Life takes the place of Beatrice, dur-
ing the absence of the madonna admires

on her faults and virtues.

"The Miracle" has all the delightful

and illuminating

symphony orchestra.

We conclude the twenty-first con-
secutive year of the Woman's Sym-

THIS WEEK.

PRETTY GIRLS AND GOOD FUN ON PANTAGES BILL.

THE more soldier of '61 is in town. He's at Pantages. He's an Irishman, and his name is Jere Acuffe, and he appears in a skit designed for two. His assistant is Lene Brown, a pretty girl with nice dark Irish hair and nice Irish blue eyes. Jere plays an Irish-American soldier. Lene is his nurse. The scene is the outside of a hospital. The hospital very much resembling the Sisters' Hospital on Sunset boulevard, Los Angeles. Jere and Lene sing (with good but untrained voices) their repertory being composed entirely of old Irish sentimental songs. They also exchange jokes that are rather good, up with tears and smiling being Irish.

The Animated Weekly is graphically interesting as usual.

Maurice. There is a most wonderful moving-picture presentation now showing at the Mount Theater. "The Mirror" is the old legend so beautifully told by the utters.

Scenic beauty, rich color and im-

pressive music make the picture unique and magnificent. The opening scene shows a peaceful nursery and shadowy church on the banks of the Rhine. Slowly the veil lifts and the nuns pass through the auditorium and enter the cloister. In the closing scene, as the light breaks through the roses and the boughs, sweet-faced Beatrice passes her hand over her brow, awakening from her deep sleep. It has all been a dream; the illusion is perfect in its splendor. "The Mirror" is a masterpiece.

Miss Eddie Belpin, the charming soprano singer at the Mozart, the joy and delight with her well-chosen song numbers.

Scenic beauty, rich color and im-

pressive music make the picture unique and magnificent. The opening scene shows a peaceful nursery and shadowy church on the banks of the Rhine. Slowly the veil lifts and the nuns pass through the auditorium and enter the cloister. In the closing scene, as the light breaks through the roses and the boughs, sweet-faced Beatrice passes her hand over her brow, awakening from her deep sleep. It has all been a dream; the illusion is perfect in its splendor. "The Mirror" is a masterpiece.

Maurice. There is a most wonderful moving-picture presentation now showing at the Mount Theater. "The Mirror" is the old legend so beautifully told by the utters.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The City Council fixed the gas rate for San Pedro yesterday at \$1 per 1000 cubic feet for the next fiscal year.

An ordinance of intention for the Pacific-avenue boulevard was passed by the Council yesterday, the Harbor Advisory Board having receded from its position regarding the withholding of \$18,000 from the \$65,000 appropriated out of harbor improvement funds. Only \$2000 will be held to protect the city in case of damage claims.

The grand jury made a demand upon the Council to consider that it require farmers on street crossings of the four-track line of the Pacific Electric on Long Beach avenue, to safeguard life.

The City Council adopted resolutions yesterday, asking the Governor to sign the bill providing for an appropriation of \$166,000 for a State highway between Bridgeport, Mono county, and Independence, Inyo county.

Twenty-two business organizations made protest to the City Council yesterday against the vehicle tax ordinance and asked for its repeal.

A collection of antiques was awarded yesterday to the city, which was of valuable antiquities in a storage company's warehouse fire. Expert testimony was adduced. The court received the amount to be allowed the plaintiff.

Collusion of Bidders is alleged by the county in the Hall of Records case, it being declared—and denied by the bidders—that an "understanding" had been reached by different concerns which participated.

DOLLAR GAS RATE FOR SAN PEDRO.

CITY COUNCIL CUTS FIGURES OF UTILITIES BOARD.

Members Decide that Municipality Can Afford to Take Chance of Contest in Court—No Protest on Prices for Service Except from Harbor Citizens.

The City Council has voted to establish a gas rate for San Pedro of \$1 per 1000 cubic feet for the next fiscal year. The City Attorney was instructed to prepare the necessary ordinances and present them at an adjourned session of the Council, to be held at 11:30 o'clock this forenoon.

Councilman Betkowski in speaking of the \$1 rate, said: "I think the evidence is that the gas company before us shows that the gas company can produce gas and sell it in the harbor district at a profit at the \$1 rate. This evidence is sufficiently strong for us to take a chance upon the case being decided in our favor."

Councilman McNeely, while favoring the \$1 rate for the harbor town, raised the question as to whether a protest against the rate as set by the Public Utilities Board was not a protest against the whole schedule of rates, and would not be the key for the introduction of evidence at this time regarding natural gas rates, and whether the fixing of a 60-cent rate for the city proper would not preclude the making of a lower rate for natural gas rates for the harbor town electric service here. The City Attorney ruled that this is entirely separate and distinct and rates can be fixed for this service later.

PACIFIC AVENUE. TROUBLES CLEARED AWAY.

Determined effort on the part of San Pedro citizens to put pressure for the improvement of the Pacific-avenue boulevard, a second footbridge again and the ordinance of intention for this work was finally adopted by the City Council yesterday.

This was preceded by a meeting of the Harbor Advisory Board, at which councilman was present. The status of affairs, whereby only \$2000 will be held to protect the city from possible damage claims, in case where waivers have not been secured, instead of the \$18,000 which it has been decided should be held out of the \$65,000 appropriated for harbor improvement fund for this purpose.

Special Council Hewitt appeared before the Council and stated that he did not know the reason of the undoubtedly bad improvement would be to the district it will be extremely difficult for any property owner to show cause for damages, and that the city can well afford to take the risk.

The city pays for the paving of the Main Street, between Second and Fourteenth street, to Belmont street, and the property owners pay for the remainder of the improvement under the bond provisions of the Traction Act. After deducting the \$18,000 he will find the possible damage claims and expenses in case of the Peck land and other expenses, the city's share to be put into the direct improvement will be \$57,287.56.

HUMAN FLAGMAN.

GRAND JURY'S DEMAND.

The grand jury sent to the City Council yesterday a communication calling upon the city to do the dangerous situation at street crossings on the four-track line of the Pacific Electric on Long Beach avenue, and demanding that steps be taken to protect human lives by requiring human flagmen to be stationed on both sides of crossings, or the devising of some other method for such safeguards.

The grand jury, after a general discussion of the situation, and the grand jury's request, was sent to the Public Utilities Commission, while the entire subject of grade crossings on this line was referred to the Municipal Railroads Committee of the Council for an investigation.

President McNeely of the Utilities Commission, who was in the Council chamber, was asked as to what was being done to provide for the safety of the track at street crossings, and declared that in his opinion this was not feasible, as it would involve the constructing of storm drains or the tracks could not be operated in the rainy season, the depressing forming channel in which the streetcar lines of the entire district would collect. He advised that raising the tracks was the proper method to be used.

"I can see that at no distant day," said McNeely, "it is going to be necessary to eliminate grade crossings for all high-speed lines."

COUNCIL APPEALS.
ASKS GOVERNOR TO SIGN.

Last night's mail carried to Sacramento a message from the City Coun-

sil to the Governor, urging him to sign the bill providing for an appropriation of \$166,000 for the purpose of constructing a State highway between Bridgeport, Mono county, and Independence, Inyo county.

The resolution adopted by the Council urging the Governor to take this action, he declared that for many years past it has been the policy of the State to expend money in the construction of highways, but that Southern California has never received a cent of such funds, and that southern members in the Legislature had acted together this year to secure at least a portion of such benefits to the state.

The grand jury made a demand upon the Council to consider that it require farmers on street crossings of the four-track line of the Pacific Electric on Long Beach avenue, to safeguard life.

The City Council adopted resolutions yesterday, asking the Governor to sign the bill providing for an appropriation of \$166,000 for a State highway between Bridgeport, Mono county, and Independence, Inyo county.

Twenty-two business organizations made protest to the City Council yesterday against the vehicle tax ordinance and asked for its repeal.

A collection of antiques was awarded yesterday to the city, which was of valuable antiquities in a storage company's warehouse fire. Expert testimony was adduced. The court received the amount to be allowed the plaintiff.

Collusion of Bidders is alleged by the county in the Hall of Records case, it being declared—and denied by the bidders—that an "understanding" had been reached by different concerns which participated.

Councilman Betkowski in speaking of the \$1 rate, said: "I think the evidence is that the gas company before us shows that the gas company can produce gas and sell it in the harbor district at a profit at the \$1 rate. This evidence is sufficiently strong for us to take a chance upon the case being decided in our favor."

Councilman McNeely, while favoring the \$1 rate for the harbor town, raised the question as to whether a protest against the rate as set by the Public Utilities Board was not a protest against the whole schedule of rates, and would not be the key for the introduction of evidence at this time regarding natural gas rates, and whether the fixing of a 60-cent rate for the city proper would not preclude the making of a lower rate for natural gas rates for the harbor town electric service here. The City Attorney ruled that this is entirely separate and distinct and rates can be fixed for this service later.

Collusion of Bidders is alleged by the county in the Hall of Records case, it being declared—and denied by the bidders—that an "understanding" had been reached by different concerns which participated.

DOLLAR GAS RATE FOR SAN PEDRO.

CITY COUNCIL CUTS FIGURES OF UTILITIES BOARD.

Members Decide that Municipality Can Afford to Take Chance of Contest in Court—No Protest on Prices for Service Except from Harbor Citizens.

The City Council has voted to establish a gas rate for San Pedro of \$1 per 1000 cubic feet for the next fiscal year. The City Attorney was instructed to prepare the necessary ordinances and present them at an adjourned session of the Council, to be held at 11:30 o'clock this forenoon.

Councilman Betkowski in speaking of the \$1 rate, said: "I think the evidence is that the gas company before us shows that the gas company can produce gas and sell it in the harbor district at a profit at the \$1 rate. This evidence is sufficiently strong for us to take a chance upon the case being decided in our favor."
